ARREST MAN FOR TRYING TO GET MOTOR'S PLANS

CHICAGO, Nov. 27.-Letters interopted by the federal authorities led to the arrest here of Ira J. O'Malley, an automobile motor engineer with offices in Chicago, on charges of having tried to obtain plans of the Liberty motor by brihing an employe of a Detroit automobile company.

According to federal officials, the postal authorities, warned by government agents in Detroit, intercepted letters addressed to the engineer and found in them tracings of the Liberty motor. The letters, they declared, were written by A. Boran, a woman who was employed in the drafting department of the motor company.

Federal officials said they did not believe that O Malley was in any way connected with any government hostile to the United States, but that he obtained the drawings for his own use. the arrest here of Ira J. () Mailey,

BARBER GIVES RECIPE DIAMONDS LEFT IN AUTO FOR GRAY HAIR

Tells How to Make a Home-Made Gray Hair Remedy.

Mr. A. E. O'Brien, who has been a barber in New York city for many years, made the following statement: "Gray, streaked or faded hair can be immediately made black, brown or light brown, whichever shade you desire, by the use of the following remedy that you can make at home:

"Morely get a small box of Oriex powder at any drug store. It costs very little and no extras to buy. Dissolve it in water and comb it through the hair. Full directions for mixing and use come in each box.

"You need not hestiate to use Oriex, as a \$100.00 gold bond comes in each box guaranteeing the user that Oriex powder does not contain silver, lead, ginc, sulphur, mercury, aniline, coaltar products or their derivatives.

"It does not rub off, is not sticky or guniny and leaves the hair fluffy. It will make a gray-haired person look twenty years younger.

KIDNEYS, QUIT MEAT

Flush the Kidneys at Once When Back Hurts Or Bladder Bothers -- Meat Forms Uric Acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a weil-known authority. Meat forms uricacid which clogs the kidney pores no they singgishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, fuil of sediment, irregular of paisage or attended by a sensation of scalding, get about four ounces of Jad Saits from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous saits is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize them to activity, also to neutralize the acids in trihe so it no longer causes irritation, thus ending bladder disorders. Jad Saits is inexpensive and can not injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious to keep the kidneys clean and the blood pure, thereby avoiding serior kidney complications.

Quality Is Insurance

COCA-COLA remains exactly the same product that it was before the war; the output reduced but the quality maintained-no change made in order to dilute or cheapen or in any other manner alter your drink.

The quality of Coca-Cola is our only insurance of business for the future and our best safeguard against the piracy of unscrupulous manufacturers who seek to take advantage of our reduced output by palming off concoctions colored and flavored to imitate Coca-Cola.

When you order Coca-Cola, ask for it by its full name and demand the genuine. Your palate will tell you whether you've been imposed upon. If you suspect that you've been served with a substitute, put the question squarely up to the dealer.

The Prompt Payer Is the Only "Good" Credit Risk

I. Pierpont Morgan, with all his millions, would not be as acceptable a credit risk to a Memphis merchant as John Smith, a \$30-a-week salaried man, if Mr. Morgan were "slow pay" and Mr. Smith met his obligations.

The money you have does the merchant no good unless you pay it to him. Your account on his books is practically worthless if you let it drag for months and months.

But the check you give him when it is due is a real asset. It is his to buy more goods with, to expend in improving his facilities, to employ in building up his business, to use as necessity demands.

So he gauges your attraction as a credit risk, not so much by your assets as by your performance. Say you pay in thirty days-you are GOOD. You take sixty days-SLOW. You drag your payments out over ninety days or more---U-N-D-E-S-I-R-A-B-L-E, in big letters.
